

BIKE

SHOW YOUR BIKE SOME LOVE

BIKE CLEANING SET

THE SET INCLUDES:

CONCENTRATED DETERGENT 1:10

A nanotechnology-based premium formula, to clean your bike thoroughly. It removes even the most stubborn dirt effectively, leaving a shiny and protected surface behind. With its 1:10 concentration, you can generate up to 10 litres of ready-to-use cleanser, always available after every bike ride.

POLISHER

The Polisher is an anti-static water-repellent barrier, designed to ensure the perfect finish after an accurate cleaning session, extending its duration and protecting the bike against external agents.

SPONGE AND BRUSHES SET

The set contains 5 essential tools for cleaning and servicing your bike:

- A soft sponge, to clean the bike in a gentle yet effective way.
- A large brush with medium bristles, for delicate frame cleaning.
- An adjustable double-head brush, to clean spokes and rims gently.
- A 4-in-1 brush to remove stubborn dirt from any part with ease.
- A long brush with semi-rigid bristles, to reach and clean every gear.

Plus, you can prepare 7 L of Ready-to-Use Cleanser directly in the bucket and rinse the tools.

FREE GIFT: CHAIN LUBRICANT DRY CONDITIONS

PRODUCTS FOR THE MOST DEMANDING NEEDS

CONCENTRATED DETERGENT 1:10

This concentrate, high-performing formula can be diluted up to 10 times, to effectively remove even the most stubborn dirt or build-ups, dust, smog, grease or oil. Based on a ceramic nanotechnology, it has been designed to ensure the best results in terms of cleanliness and shine. The polishing additives make drying easier and ensure a shiny finish. Compatible with e-bikes and the most sensitive materials, such as carbon, aluminium, steel, rubber, and painted or anodized surfaces.

POLISHER

Created with an advanced formula, it gives your bike a shiny finish and a water-repellent protection. Its technology creates a weather-resistant layer that fights off water and dust, extending the cleanliness and life of any surface treated. With protective Anti-UV additives, it provides total protection. Compatible with e-bikes and the most sensitive materials, such as carbon, aluminium, steel, and painted or anodized surfaces.
