

# VERNIFER®

Vernice + Antiruggine

FERRO•ALLUMINIO•LAMIERE ZINCATE\*

A BASE  
SOLVENTE

Antiruggine e vernice di finitura in un unico prodotto.

Svolge una doppia azione sulla superficie da trattare risolvendo il problema della protezione e della verniciatura.

Si applica direttamente su superfici in ferro, anche sulla ruggine.

E' pronto all'uso, facile e rapido da stendere.

La speciale formula in gel evita antiestetiche colature di vernice.

Non contiene sostanze nocive quali piombo e cromo.

Puo' essere usato anche su legno, cemento e alluminio (previa applicazione di un idoneo fondo di ancoraggio).

Puo' essere applicato anche su lamiera zincata, previo l'utilizzo di un primer specifico quale Ferox.

## PREPARAZIONE SUPPORTO

### SUPERFICI DA RIVERNICIARE

- Se presente ruggine, spazzolare
- Eliminare la vernice male ancorata
- Procedere come per le superfici nuove

### SUPERFICI NUOVE

- Sgrassare con acquaragia
- Applicare la vernice

## SISTEMI DI APPLICAZIONE E DILUIZIONE

PRONTO ALL'USO  
NON DILUIRE

DILUIRE CON 5%  
DI ACQUARAGIA

DILUIRE CON 10-15%  
DI ACQUARAGIA

## SISTEMI DI APPLICAZIONE E DILUIZIONE

IN INTERNO: SUFFICIENTE UNA MANO

IN ESTERNO: CONSIGLIATE DUE MANI

MESCOLARE IL PRODOTTO SE PRESENTA SEPARAZIONE DI LIQUIDO SUPERFICIALE

## RESA (1 MANO)

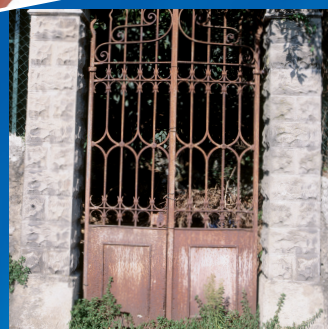

16 m<sup>2</sup>/lt ca

## ESSICCAZIONE

SECCO AL TATTO DOPO 6 ORE - RIVERNICIABILE DOPO 24 ORE

## PULIZIA ATTREZZI

ACQUARAGIA
